An article published as part of the Watches and Jewellery Special Report on September 11, 2010, referred to reported human rights abuses at the Mbada diamond mine in Zimbabwe. We wish to clarify that the reported abuses occurred in the Marange area (where the Mbada Diamond Mine is situated) prior to any operational or other involvement by The New Reclamation Group (Proprietary) Limited: the incorporation of Mbada Diamond (Private) Limited and the establishment of the Mbada diamond mine occurred in August 2009. We apologise for any contrary impression caused.
